Mrs. Helen M. Harris

Dear Mrs. Harris:

Thank you for your letter of February 15, and for your generous gesture in sending this information on Macorhicia. I cannot answer all the questions which you raise concerning this material, however, I have forwarded it to the physicians and scientists who have been in charge of my brother's care and I am sure they will make a critical appraisal.

At your request, I am returning these materials to you following their study by the above physicians. May I tell you again how much I appreciate your kindly suggestions.

Sincerely,

SIGNED

The Honorable Allen W. Dulles

Dear Mr. Dulles:

As I am a victim of the same type of cancer as your brother has, the Honorable John Foster Dulles and wishing so to see him have his chance to live I wish to bring to your attention a chemotherapy that has helped me - Mucorhycin - the enclosed article will give you the facts. Why has Dr. Heller refused to send down a competent medical and scientific staff to evaluate Mucorhycin? Dr. Joseph Wilson medical director of the Drosnes-Lazenby Cancer Clinic wrote Dr. Heller in July 1956 stating that they had meet the criteria laid down for them in 1948 and have patients alive five years or more. Yet inquires made of National Health institute brings the reply that this is an unorthodox treatment that has no benefit - that only surgery and X-Ray cures cancer. Yet the famous Dr. Rawdin has stated that surgery and X-Ray has ~~failed~~ failed to cure cancer. Its the same old story, cancer has a seeding ability - after surgery cancer cells are cut loose and travel via the blood stream and lymph gland and start growing undetectable at the second stage is worse than the first. Cancer deaths has increased from 4.7 to 15.7. The enclosed articles on Mucorhycin will give you the facts!

Please consider the facts in the Congressional Record dated August 3, 1953 pages A-5350 thru A-5350 for Senator Tobey's Chief counsel first report into the suppression of cancer drugs and research. Senator Tobey died suddenly and this very important investigation was stopped. A Congressional investigation is badly needed now.

The facts in the enclosed article "Legislating Ill Health and National Suicide" by Willard Gleeson will prove what a grave threat to our Nation is the Plan of Russia to destroy our Nations health, the health fund drives, and the need to investigate them.

I have done extensive research on the cancer issue.

Praying for your brothers recovery.

Sincerely,

Helen M. Harris
